DEA's Mission and Vision

The Digital Euro Association is an independent voice of society committed to advancing values such as freedom, privacy, and transparent governance in digital money.

Who we are

The Digital Euro Association (DEA) is a **think tank specializing** in central bank digital currencies (CBDCs), stablecoins and other forms of digital fiat currencies. In particular, we focus on the **private and the public digital euro**.

What we do

We target **new and innovative topics** such as CBDCs and stablecoins, including emerging and novel forms of digital money and payment infrastructures.

Mission

The Digital Euro Association (DEA) is committed to independence in aggregating and amplifying the views of society and the furtherance of the public good through knowledge exchange, encouraging new ideas, and forward-thinking in the field of digital money. The DEA is the independent voice of citizens regarding digital money-related topics. Partnerships and collaborations are in no way an endorsement of member ideologies, products and services, nor political regimes.

DEA's Core Pillars

The DEA educates, builds communities, and fosters collaborations about digital money.

Education

We **provide education** about the digital euro following a diverse approach. This **approach includes written publications, conferences, courses, working groups, roundtable and panel discussions**, and other novel means of education.

Community & Collaboration

We build **multidisciplinary communities**, providing a platform for cross-institutional **knowledge exchange** to enhance understanding and support industries in developing digital euro-based use cases. We foster collaborations as part of the leading think tanks worldwide focused on digital currencies, especially the private sector digital euro (e.g. stablecoins) and the public sector digital euro (CBDCs).

Public Affairs

We proactively **engage with European government bodies, legislators, and regulatory authorities** to represent our community **interests** and **influence** the development of policies supporting the growth and adoption of the digital euro. We offer advisory on CBDC and stablecoins for political institutions and support in the decision-making process.*

* The Digital Euro Association is an association of political interest groups registered in the lobby register with the registration number R006254 in accordance with Sect. 2 § 1 LobbyRG.

We fully implement the code of conduct for interest representatives within the framework of the Lobby Register Act.

DEA's Education Services

The DEA education services are wide-ranging and cater to an array of audiences.

The Digital Euro Association provides a variety of services to educate various groups about digital money. Our goal is to support a successful digital money future for all.

For who?

The general public, employees, executives and decision-makers from the financial sector interested in the future of the monetary system.

Digital Money Academy on CBDCs

1. Introduction to CBDCs
2. CBDC technology
3. Lessons learned from central banks worldwide
4. CBDC use cases

Digital Money Academy on Stablecoins

1. Introduction to Stablecoins
2. Current stablecoin landscape
3. Stablecoin use cases
4. Stablecoin regulation in and outside of the EU

[Enquire about the Digital Money Academy here!](#)

By whom?

Esteemed industry expert lectures involved in the design, deployment, oversight and general discussions about CBDCs and stablecoins.

Digital Euro Conference (DEC)

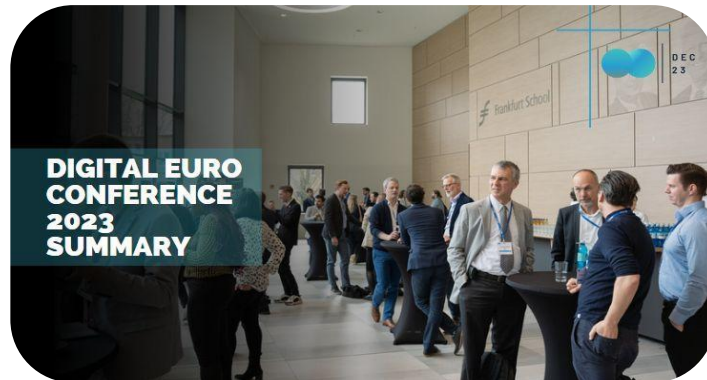

The DEC is a premier global digital money event that brings leading experts in Central Bank Digital Currencies (CBDCs), Stablecoins, and Tokenized Commercial Bank Money together.

Date: February 29, 2024

Venue: Frankfurt School of Finance and Management

Topics: Central bank digital currencies (CBDCs), stablecoins, and commercial bank money tokens

Anticipated attendance: 300 on-site + 1,500 online

[Read the DEC23 Recap here](#)

"Very good and condensed look at the current state of the digital Euro with a broad set of expert speakers."

Thomas Hartmann - Partner at IBM

"Very dense and informative conference (and this is rare!)"

Christian Pfister - Former Advisor at Banque de France

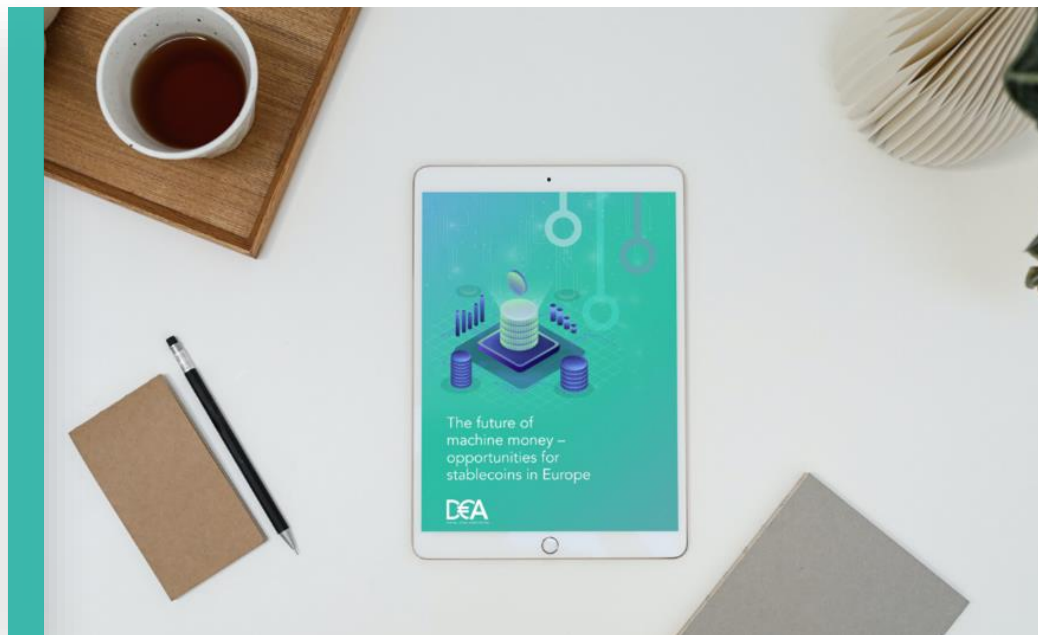

"There is too much ambiguity regarding CBDCs and DEC23 provided the right platform to gain clarity on it."

Khusboo Gupta - Researcher at Digital India
